

# MATHS FINAL EXAM REVISION WORKSHOP

2014 GRADES 7 to 12

UKZN HOWARD COLLEGE

By SA's TOP TUTOR

## About the Revision Workshop / Seminars:

Examination type questions with answers covering the entire years work are planned prepared and presented in an easy to understand approach, complying with the latest **CAPS** syllabus.

Learners are guided on how to answer questions to earn the maximum marks in the least possible time, thus averting the situation of **NOT** having enough time to complete the paper.

Grade 11 and 12 learners will be introduced to some valuable calculator use and manipulations enabling them to earn a few extra marks with ease.\*( Some of these methods are exclusive to EDUMAQ and learners who join us later are awestruck by the response of our regular attendees ).

For the first time **GRADE 7** learners would be given the opportunity to be personally taught and motivated by Mr Khan himself... They can go back to school with renewed confidence.

About Mr Khan: just  "SA's Top maths tutor"

- \* over 27 years teaching experience
- \* successful track record
- \* scores of traceable references (see website)
- \*master of methodology

## Who may attend?
